1. The first step in the process is to identify the problem or issue that needs to be addressed.

2. Once the problem is identified, the next step is to gather relevant information and data.

3. After gathering information, the next step is to analyze the data and identify the root cause of the problem.

4. Once the root cause is identified, the next step is to develop a plan of action to address the problem.

5. The final step in the process is to implement the plan and monitor the results to ensure the problem is resolved.
